Volume 4

Sowing Seeds & Harvesting

"How precious also are thy thoughts unto me,
O God! How great is the sum of them!
If I should count them,
they are more in number than the sand;
when I awake, I am still with thee."
~Psalm 139

CSPN EMPLOYEE HIGHLIGHT

JENNIFER TAYLOR JAMES, SPIRITUAL CARE DIRECTOR

"Just like David slew Goliath, a few Christly thoughts can obliterate obstacles to Medicare claims processing. Like a Christian Science nurse prays before entering a room, I pray before each call or email. The Christ is on the receiving end of any inquiry. One example is when an insurance employee volunteered to join me in prayer after an hour of troubleshooting by phone still didn't get us to an answer.

Love is leading us all, and we're seeing a great "harvest" of claims paid while getting to explain a bit about Christian Science healing. There's still work to do, but I'm grateful Principle goes before us all!"

Did you know....?

For every 1 new claim we file each day, there are 4 million Medicare + 2 million Medicare Advantage claims submitted. Our success in claims processing requires a great deal of educating the public about Christian Science - and that's a good thing!

ASSOCIATED FACILITIES

END OF 2026 ANNUAL MEETINGS & EVENTS

October 30 through November 9 *members only
Longyear Museum virtual event: all members will receive an email link to the event!

November 8 at 2pm CT *in-person & online

The Leaves, Richardson, TX **

* indicates CSPN member
** accepts Medicare, including Supplemental & Medicare Advantage plans

Our cup runneth over...

Sunrise Haven

"My wife and I met a good friend at a museum recently. While I was there, I became disoriented and my speech was slurred. I was taken by ambulance to a hospital. We were there for about four hours and they wanted to keep me for several days. They were very concerned and even more concerned when I insisted that I was going home. I was strongly warned against not staying in medical care. When we got home, I called my Christian Science Practitioner and made plans to go to Sunrise Haven. Five days later, with the support of the Christian Science nurses, I was completely healed of all symptoms. It is now three months since this event, and I have had no recurrence of these issues.
My stay at Sunrise Haven changed the way I study. Now I subscribe to the Christian Science Sentinel and use it much more than in the past. My experience has helped me recenter my daily study of Christian Science."
~A Grateful Guest at Sunrise Haven

Arden Wood

"The Christian Science nurses expressed such loving and tender care that I felt completely embraced in that love, completely in God's care."
~Former resident at Arden Wood

A former patient stopped by to thank the Christian Science nurses who supported her while she was here. Seeing the joy, hearing the gratitude and the report of resumed full employment...our hearts are singing, "Knowing well that Thou wilt keep us Ever in Thy blessed way." Hymn 58
~From the Director of Christian Science Nursing

Beacon Haven

"I appreciated the loving care I received 24 hours a day when it was needed. There was no judgement of my growth, only a full expectation that healing was on the way. Kindness and joy were expressed by everyone that worked there, whether it was the Christian Science nurses, the office staff, or the delightful gentleman who cooked our delicious meals. Each individual embodied a healing spirit. The day came when I was able to return home. I continue to love my daily study and growth and cherish my healing time at Beacon Haven."
~Former resident at Beacon Haven

Broadview

Broadview had its inaugural Hub Activity Center event where we heard inspirational messages from staff, had wonderful breakout sessions with all age groups, and there was a sense of community coming together that seemed to meet a need! By all measures it was a success. Save the Date for Broadview's Annual Meeting on 12/5 starting at 9:30am. The topic is "Connection, What we mean to each other." The speaker is Dr. Annette Kreutziger-Herr C.S. Also, hear reports on latest wonderful initiatives and progress in the Christian Science Nursing field, at Broadview and the Expanded view of The Hub as it has come alive. Onsite and on Zoom.
~From the terrific team at Broadview

Chestnut Hill Benevolent Association

"The love and friendliness of the BA's dedicated Christian Science nurses made me feel comfortable being on the receiving end of care. I appreciated being able to devote all my thoughts to study and prayer. The way the Christian Science nurses anticipated my every need was wonderful. [Since returning home the individual expressed gratitude for continuing to move around freely and having the freedom to weed in the garden and attend community activities.]"
~Recent expression of gratitude for Christian Science Nursing and healing at Chestnut Hill BA

Olive Glen

"When I arrived at Olive Glen, I was struggling with persistent pain and felt overwhelmed by the daily demands of life. I wasn't sure what to expect, but from the moment I was welcomed, I felt safe and cared for. In just a few weeks, I experienced a profound change. I began to feel a renewed sense of vitality and purpose. The supportive atmosphere and structured routines helped me regain a sense of balance. More than that, I learned how to better care for myself-not just physically, but spiritually and emotionally. There was a deep sense of peace at Olive Glen. The uplifting atmosphere, thoughtful care, and consistent spiritual support helped me feel grounded again. I also truly appreciated the nourishing meals, which contributed to my overall sense of well-being. I left Olive Glen feeling refreshed, equipped with practical tools and new insights. Most importantly, I left with a deeper understanding of God's love and care for me. I am so grateful for the time I spent there."
~Former resident at Olive Glen

Lynn House

"Your help was invaluable to the demonstration, and I am truly grateful for your fine skills and Scientific thinking. Your dedication to the Cause is noteworthy, and I have been blessed.
Upon returning home, I caught up with two different neighbors who had each seen the physical difficulties I was having prior to coming to Lynn House. They are both very lovely, very caring, and also very medical. I'm sharing this because they immediately noticed the progress and couldn't help but to comment and rejoice. One of them asked me what nursing facility I went to in case she ever had a need. I explained that Lynn House is a Christian Science care facility and that the Christian Science nurses are trained accordingly and radiate God's love. My friend acknowledged the importance of love and noted that she could sense the connection between your love as Christian Science nurses and the healing. I'm so grateful my neighbors could see positive effects of Christian Science and of Love in operation, and for this I am also very grateful."
~Former patient at Lynn House

The Leaves

Thanks from recent patients...

- The atmosphere here is so uplifting, spiritually supportive, and harmonious, and I want to contribute to it. I chose to be here, you know. I like knowing that my family has the freedom to live their lives while knowing that I'm taken care of.
- It's nice to be in an atmosphere where my needs are met, so that I can focus on my connection to God. And everybody here expects me to get better. I just love that thought that healing is inevitable!
- I know that the CSNs go above and beyond to meet my needs. It doesn't matter what time of day or night, they're just right there willing to help.
