

## Help Christian Scientists choose spiritual care!

**If a loved one ever needed hospital-level nursing care, how would "wisdom, economy and brotherly love" serve you and your family, if you chose Christian Science?**

The Christian Science Provider Network is part of the answer. We work with Christian Science nursing facilities so patients who choose skilled spiritual care don't have to wrestle with insurance claims.

**Each year, we help secure about $3 million in Medicare, Medigap, and Medicare Advantage coverage that families would otherwise pay out of pocket.**

Do you know someone who could benefit from Christian Science nursing care and wants Medicare to cover it? Your gift helps make that possible. We're a small but mighty 501(c)(3) nonprofit, established by The Mother Church in 2012 to **help patients and all 8 Medicare-certified Christian Science nursing facilities** use the federal law that recognizes Christian Science healing for Medicare reimbursement.

For some, this support is what makes the choice of Christian Science nursing care possible. Any gift is precious to us.

## Will you join us?

**We're all in this together.**

**Check:** Mail to 12430 Tesson Ferry Road, #148, St. Louis, MO 63128

Annual Meeting at Peace Haven
Click here to register for online attendance!

**November 8 at 2pm PT *online**
Annual Meeting at Olive Glen

**November 14 *in-person**
Annual Meeting at Daystar

## FACILITY HIGHLIGHT: THE HUB

The Hub is an activity center on the **Broadview** campus — a home for spiritual inspiration, fellowship, learning, service and Christian Science nursing awareness.

The space **hosts workshops, community gatherings, and shared projects** such as a community garden and connects to a beautiful expanse of neighboring **walking paths and open space.**

Broadview is a 501(c)(3) non-profit organization operating since 1947 that provides Christian Science nursing and restorative care in **Los Angeles**, with compassionate support on campus and through our 24/7 virtual visiting service.

Guided by values. Driven by hope. Built for what's next.

**More life. More purpose. More together.**

## Sharing the Cost of Care by Length of Stay

This table compares your share of costs for care, in addition to the enrollment fees you pay for whichever program you subscribe to: Original Medicare, Medigap, and Medicare Advantage (2026 rates). The Medigap column uses Plan G as the example, since it's one of the most common plans for people new to Medicare. Other plans differ, and the main differences are noted below.

| Length of care | Original Medicare Part A (you pay) | Medigap / Supplement Plan G + Original Medicare Parts A+B (you pay) | Medicare Advantage + Original Medicare Parts A+B (you pay) |
|---|---|---|---|
| **Days 1-60 – hospital-level care** | $1,736 Part A deductible once per benefit period, then $0 | $0, because Plan G covers the Part A deductible | Plan-set deductible, per-admission copay, or per-day copay for the early days |
| **Days 61-90 – hospital-level care** | $434 per day | $0 | Often $0 or a modest daily copay, depending on the plan |
| **Days 91+ – hospital-level care (lifetime reserve, up to 60 days)** | $868 per day | $0 | Often no reserve-day system; many plans stop copays or cover a longer stay |
| **After reserve days are used up** | All costs | $0 for 365 more lifetime days of hospital-level care, then all costs | Plan-specific; the annual out-of-pocket cap still applies |
| **Days 1-20 – skilled-nursing level care** | $0 | $0 | $0 for many plans, but some start copays earlier |
| **Days 21-100 – skilled-nursing level care** | $217 per day | $0, because Plan G covers coinsurance for skilled-nursing level | Tiered daily copay, often after the first 20 days |
| **After Day 100 – skilled-nursing level care** | All costs | All costs | Usually not covered; check the plan |
| **Part B (doctor/outpatient)** | About $283 annual deductible, then 20% | About $283 annual deductible, then $0 (Plan G covers the 20%) | Plan copays or coinsurance |
| **Annual out-of-pocket cap** | None | None needed; costs are mostly covered | About $9,250 in-network for 2026 |

- **Medigap Plan A** doesn't cover the Part A deductible or skilled-level coinsurance, so you pay those as under Original Medicare.
- **Medigap Plan N** covers the Part A deductible and skilled-level coinsurance but adds small copays for some Part B services.
- **All Medigap plans** include the 365 extra hospital-level days after Medicare's days run out.
- **Medicare Advantage** varies the most. Your plan's Evidence of Coverage gives the exact copays for each stay length.

**"...neither red tape nor indignity hindered the divine process."**
